

Bondoc și Asociații assisted RetuRO Sistem Garanție Returnare, the sole administrator of the deposit-return system implemented in Romania

Bondoc și Asociații assisted RetuRO Sistem Garanție Returnare, the sole administrator of the deposit-return system implemented in Romania, in the negotiation and execution of the engineering, procurement and construction contract for the technical infrastructure and the equipment necessary for the operation of the deposit-return system throughout the country.

The engineering, procurement and construction contract in question is a complex one both due to the nationwide scope of the system implemented (through multiple regional centers) and also due to the highly specialized technical component, including the software component that supports the digitization of the deposit return flow.

Following the signing of the relevant contract, Bondoc și Asociații is currently assisting RetuRO with the implementation phase, a further confirmation of the firm's significant expertise in this type of contracts.

The Bondoc și Asociații team that assisted/is assisting RetuRO with respect to this contract is led by **Monica Iancu** (*Partner*), in close cooperation with the real estate law team of Bondoc și Asociații led in this project by **Cosmin Stavaru** (*Partner*). The team also included, among others, **Horațiu Dan Dumitru** (*Managing Counsel*), **Bogdan Istov** (*Senior Associate*) and **Alina Zaharia** (*Junior Associate*).
