

## Governance programme: Legal framework to ensure modernisation and commissioning, main defence goal

**Developing a legal framework meant to ensure the modernisation, commissioning and efficient management of priorities represents the main goal on medium-term in the defence area in the the National Liberal Party - PNL, Saver Romania Union - Party of Liberty, Unity and Solidarity - USR PLUS, and the Hungarian Democratic Union of Romania - UDMR coalition government programme.**

According to the document, the Government will have in view "the consolidation of the defence and deterrence posture, through developing some robust and resilient, credible, interoperable, flexible and efficient defence capabilities," which will be devoted to deterring a possible aggression against Romania and ensuring a proper response to the challenges against the security environment, including in the hybrid spectrum.

The medium-term goals are developing the political and legal framework in the national defence and security area, increasing Romania's strategic relevance in NATO and EU, consolidating the Strategic Partnership with the US, strengthening the bilateral cooperation in the defence area, continuing the demarches on developing capabilities through implementing the Romanian Army 2040 Programme and the National Endowment Plan of Romania's Army and improving the specific normative framework in the defence area and the quality of life of the staff.
