

Deficit at 1.28 pct of GDP, at the end of Q1, dropping since similar period of 2020

The execution of the general consolidated budget in the first three months of 2021 ended with a deficit of 14.63 billion RON (1.28 pct of the GDP), a drop over the deficit of 18.06 billion RON (1.71 pct of the GDP), recorded in the first period of the year 2020, according to data published on Wednesday by the Finance Ministry.

"The budget execution in the first quarter comes with a series of good news. Over Q1 2020 and 2019, we have an increase in income accompanied by an increase in investment. The expenses regarding projects financed from non-refundable funds have increased by 20.4 pct. The deficit drops by 0.4 pp of the GDP over the same period of last year. The expenses also increased by 11.2 pct, mainly for reasons relating to the management of the COVID-19 pandemic and increasing the pension point and child allowances. The financial monitoring and discipline in the area of budget expenses needs to be reinforced," wrote Finance Minister, Alexandru Nazare, on his Facebook page.
