Madalina Rachieru-Postolache, Head of the Bucharest Capital Markets practice, said: "Premier Energy's listing was a complex and innovative project for Romania, as it was the first initial public offering combined both with a secondary offer and with a guaranteed allocation for the issuer's management. We thank the Premier Energy team for trusting us, wishing them success on the Bucharest Stock Exchange – they are one of the fastest growing energy

infrastructure companies in South-Eastern Europe and I am certain that they will also have a promising progress in the future. I would also like to thank the institutions involved (ASF, BSE and Depozitarul Central) for their professionalism and excellent collaboration, especially given the tight timing of the transaction (ASF approved the offer prospectus immediately after the Easter break). The first part of 2024 has been a very busy time for us, with a significant pipeline of Capital Market transactions, which indicates that companies and investors in Romania and in the European Union have more and more confidence in the Romanian market."
